**Re: Support of H.R. 879 the *Medicare Patient Access and Practice Stabilization Act***

Dear Representatives Murphy, Panetta, Miller-Meeks, Bera, Joyce, Ruiz, Miller, Schrier, Tenney, and Krishnamoorthi:

As patient and physician advocates, the Alliance of Specialty Medicine (Alliance) writes in support of your legislation, **H.R. 879, the *Medicare Patient Access and Practice Stabilization Act***, which would eliminate the 2.83% Medicare physician fee schedule cut and provide an inflationary update for calendar year 2025.

The Alliance represents more than 100,000 specialty physicians and is deeply committed to improving access to specialty medical care through the advancement of sound health policy. The Alliance urges Congress to take immediate steps to stabilize Medicare physician reimbursements as proposed in the *Medicare Patient Access and Practice Stabilization Act*. Additionally, we appreciate your acknowledgement that a permanent solution is necessary to address the systemic issues with the Medicare Physician Fee Schedule (MPFS).

As you know, Medicare physician reimbursement has failed to keep pace with rising inflation, leading to inadequate reimbursement. The Alliance is reassured that your legislation seeks to address impending cuts to reimbursement to ensure financial stability and predictability.

The layers of cuts imposed on physicians due to the applicable statutes create immense challenges in maintaining solvent practices, retaining and recruiting qualified staff, and ensuring patient access to health care. Because of the year-over-year reductions in Medicare reimbursements over the past several years, more and more physician practices have been forced to take drastic measures, such as limiting the number of Medicare patients they see, consolidating with larger hospital or health care systems, which increases costs to the Medicare program, or retiring early and permanently closing their doors.

We greatly appreciate your leadership on this important issue and look forward to working with you to address this serious problem and strengthen the Medicare program and patient access to providers.

Sincerely,
